

CALL	TENSIONER MODEL USED & MOUNTING CONFIGURATION	ANTENNA TYPE	TOP PULLEY USED?	COMMENTS
K4WWB	20-50 package horizontal	G5RV/ZS6BKW	No top pulley used	Survived ice and snow storms last winter. High wind and thunderstorms were not a problem. Much cleaner and nicer than the alternative pulleys and weight buckets. Highly recommend your Tensioners.
W4AWM	Single 30-100 horizontal	Carolina Windom 80 fed with RG-8X	No pulley	Installed myself, easy to install. Wow! Antenna is nearly flat with an added margin of safety in high winds.
W1EBI	3 30-100 vert. 1 20-50 vert 1 30-100-R ang.	Have 5 dipoles with Tensioners fed with LMR-400	Yes	Met my expectations, perfect. Previously used bungee cords and Tensioners are a far better solution. They allow greater tension but with the safety of variable force. An excellent and professionally made product.
W2EG	30-100 package horizontal	Alpha-Delta DX-CC w/RG-213 dipole	Yes	Good product...thanks.
KM4HPN	30-100 package horizontal	Radio Works Carolina Windom Compact 80	No pulley used	Great Tensioner and antenna combo. Thinking of another dipole, will use Tensioner. Very pleased with units. Live right on coast.
W4BSG	Single 20-50 horizontal	66' 40m OCF fed with ladder line	Yes	Just looped over tree top by myself at age 87. Quality and performance quite good.
WA8NLX	2 30-100 packages horizontal	2 65' Windoms Fed with LMR-400	No top pulley used	Looped over tree tops. Everything, including performance has met my expectations
K9HVW	20-50 package, 1 unit horizontal and 1 vertical	66' dipole fed with window line	Yes	Exceptional performance, excellent product.
W7BEB	2 30-100 packages	2 OCF dipoles, 80-10m, coax fed	Yes	Everything working well. Meeting my expectations.
K8ESQ	Single 30-100 horizontal	Tennadyne TD-90HP, terminated folded dipole fed with coax	Yes	Working well, as advertised, meeting expectations
NT5W	6 30-100 horizontal	2 260' dipoles 1 Radio Works Super Loop 80	Yes	Overall the quality, performance, and service has exceeded my expectations
N2YIB	30-100 package	136' OCF fed with RG-8x	Yes	My Vari-ten Tensioners have exceeded all my expectations. They are a superb asset to my station. Thank you.

AA2WP	Single 20-50	Carolina Windom 40m	No top pulley used	Outstanding quality and performance. I always look at it when it is windy and it's working just fine. Works just as advertised with heavy winds and snow.
W4ASE	Single 30-100 horizontal	80m Windom	Yes	Works great, quality and performance great!
W5BR	Single 20-50 vertical	66' OCF with 4:1 Balun, ladder line & coax	Yes	I've recommended it to several others. I believe it's superior to pulleys and weights. No longer need to slack the lines when high winds are forecast.
K4UQ	20-50 package horizontal	260' doublet fed with ladder line	No top pulley used	Great product...meeting all my expectations and no more broken antenna wires
KG4RUL	20-50 package horizontal	105' inverted L	No top pulley used	Great looking and well made. Met all of my expectations.
W0BTO	30-100 package horizontal	160m Windom	No top pulley used	Working very well, as advertised
KD2DUT	Single 20-50 vertical	G5RV, Jr.	Yes	I like it. Works as advertised. Great Packaging and shipping. Thanks for the great product
N0TB	Single 30-100 vertical	80 m. wire vertical	Yes	Working well, as advertised, meeting expectations
K4AJ	20-50 Package Both units vertical in tandem at one end of antenna	80m Dipole fed with 600 ohm ladder line	Yes	Very well packaged for shipment. Units look good.
W1AO	20-50 Package	270' Windom fed with RG-8x	No top pulley	Working flawlessly through two Maine winters, heavy winds and ice. Outstanding, works as described.
W4USR	Single 20-50 vertical	Tensioning the apex of 40m delta loop	Yes	Outstanding product and a great solution for supporting wire antennas. Solved broken wire problems.
KD2T	2 20-50-R 1 20-50-R	80-10m OCF, Vee Inverted L	Yes	Installed with screw anchor stakes on ends of OCF so that antenna direction can be changed
AC2GR	20-50 package horizontal	102' G5RV, window line, balun, RG-213	No top pulley used	Installed with 3/16" Dacron over tree tops. Live near coast and open water with high winds. Working perfectly.
W1PHI	20-50 package	66' dipole fed with 450 ohm window line	No top pulley used	Dipole installed in tops of two tall pine trees w/o pulleys. Survived Hurricane Arthur, working perfectly.
K4JJW	20-50 package horizontal 30-100 package horizontal single 20-50 vertical	30-10m Lazy H 135' inverted L 165' inverted L	No top Pulley With pulley	Working perfectly after two years. All three antennas survived Hurricane Arthur with no problems
